

QA ToDo Project ACCEPTANCE CRITERIA

USER STORY 1

As a User I need to be able to access the website, so that I can use and navigate the web application

ACCEPTANCE CRITERIA:

- User should be able to enter a URL to access the site
- Any errors accessing the website should be made clear to the user (404 page)

USER STORY 2

As a User I need to be able to create a to-do list, so I can keep a list of to-do items

ACCEPTANCE CRITERIA:

- Should be very obvious to the user how to create a to-do list
- Should require minimum input to create a simple list

USER STORY 3

As a User I need to be able to add to-do items to a list, so I can keep track of the things I have to do

ACCEPTANCE CRITERIA:

- Should be very obvious to the user how to create a to-do list
- Should require minimum input to create a simple list

USER STORY 4

As a User I need to be able to edit a list, so I can change the list details such as name.

ACCEPTANCE CRITERIA:

- Should open a new screen or modal with a form
- The edit form should have existing details already filled

USER STORY 5

As a User I need to be able to delete a list, so I can remove lists which are complete or old lists

ACCEPTANCE CRITERIA:

- Should prompt confirmation before deleting
- Should also delete all items within the list

USER STORY 6

As a User I need to be able to edit to-do items within a list, so I can change to-do details if circumstances change.

ACCEPTANCE CRITERIA:

- Should open a new screen or modal with a form
- The edit form should have existing details already filled

USER STORY 7

As a User I need to be able to delete a to-do item from a list, so I can remove items from a list which I may have accidentally added or are no longer needed.

ACCEPTANCE CRITERIA:

- Should prompt confirmation before deleting

USER STORY 8

As a User I need to be able to mark a to-do item as done, so I can see which items need doing and which ones are done.

ACCEPTANCE CRITERIA:

- Should clearly mark a to-do item as done (colour change or line-through text)
- There should be a clear difference between delete and marking as done
